– Model view

– Power Query Editor

– Advanced Editor

- Prepare a document with details of the following along with their price

– Power BI Desktop

- *Power BI Desktop* is a free application you install on your local computer that lets you connect to, transform, and visualize your data
- Two licensing options – Power BI Pro & Power BI Premium

– Power BI Pro

- Self-service and modern BI in the cloud
- Collaboration, publishing, sharing and ad-hoc analysis
- Fully managed by Microsoft
- Power BI Pro, users are licensed individually and participate fully in the use of Power BI – both the creation of content and the consumption.
- All Pro users can connect to hundreds of data sources on-premises and in the cloud, create interactive reports and 360-degree dashboards, share that content with other Pro users, and consume content shared by others.
- Price -> \$9.99 Monthly (Per user)

– Power BI Premium

- Enterprise BI, big data analytics, cloud and on-premises reporting
- Advanced administration and deployment controls
- Dedicated cloud compute and storage resources
- Allows any user to consume power BI Content

- Power BI Premium, licensing capacity for your content rather than licensing all users of that content. Content (datasets, dashboards, and reports) is stored in Premium and can then be viewed by as many users as you want, without additional per-user costs. These users can only view content, not create it. Viewing includes looking at dashboards and reports on the web, in our mobile apps, or embedded in your organization's portals or apps. The creators of content in Premium still need their own Pro licenses
- Price -> \$4,995 Monthly (per dedicated cloud compute & storage resource with annual subscription)
